

Stylist article – June 2019 – **Electrologists Needed**

Electrologists Needed

The Board of Barbering and Cosmetology (Board) is currently in the process of conducting an Occupational Analysis on the Electrology profession. One of the steps in this process is conducting two-day workshops with select licensees. The Board is seeking electrologists located throughout California who will assist with this project as expert consultants.

An occupational analysis defines a profession in terms of the actual tasks that new licensees must be able to perform safely and competently at the time of licensure. To develop a licensing examination that is fair, job-related, and legally defensible, it must be based upon what licensees actually do on the job.

NOTE: Participants will receive a per diem of \$100.00 per day and reimbursement for travel expenses.

The workshops will take place on September 16-17, 2019 and January 27-28, 2020 in Sacramento, California. The participants will be expected to participate all day. If you cannot make yourself available for the entire day, please do not respond to this invitation.

The Board seeks electrologists who meet the following criteria:

- Have a current/active license.
- Currently provide Electrology services on clients in a California establishment.
- Have not received a violation from the Board within the last five (5) years.

If you are interested in providing valuable input which will assist the future generations of the electrology industry, please send your email and phone number to Allison.Lee@dca.ca.gov.

Thank you for your assistance with this important project.
